Data Protection Policy

December 2023

Revision history

Date	Changes	Author(s)
June 2021	Adopted from Learn Sheffield	Andy Wynne (& G Harvey)
Dec 2023	No changes – discussed with DPO, who advised all data related policies to be updated with him in late summer term for ratification by governors in Autumn and on a rolling review process after this.	Andy Wynne (& G Harvey)

Approval

Date	Approver(s)	Minute number
17/3/21	Resources Committee	12.3
06/02/24	FGB	9.5

Review: This policy will be reviewed every 2 years

Date due for review:
October 2024

To be read in conjunction with:

- [Freedom of information publication scheme](#)
- [Staff Acceptable User Policy \(IT\)](#)
- [Online safety policy](#)
- [Subject Access Request Policy](#)
- [Data Retention Schedule](#)

Appendix 1: Personal data breach procedure	10

1. Aims

Our school aims to ensure that all personal data collected about staff, pupils, parents, governors, visitors and other individuals is collected, stored and processed in accordance with the [General Data Protection Regulation \(GDPR\)](#) and the expected provisions of the Data Protection Act 2018 (DPA 2018) as set out in the [Data Protection Bill](#). This policy applies to all **personal data**, regardless of whether it is in paper or electronic format.

2. Legislation and guidance

This policy meets the requirements of the GDPR and the expected provisions of the DPA 2018. It is based on guidance published by the **Information Commissioner's Office (ICO)** on the [GDPR](#) and the ICO's [code of practice for subject access requests](#).

It also reflects the ICO's [code of practice](#) for the use of surveillance cameras and personal information. In addition, this policy complies with regulation 5 of the [Education \(Pupil Information\) \(England\) Regulations 2005](#), which gives parents the right of access to their child's educational record.

3. Definitions

Term	Definition
Personal data	Any information relating to an identified, or identifiable, living individual. This may include the individual's: <ul style="list-style-type: none">• Name (including initials)• Address and contact details• Identification numbers such as NI or passport number• Location data• Online identifier, such as a username• Photographs or video footage
Special categories of personal data	Personal data which is more sensitive and so needs more protection, including information about an individual's: <ul style="list-style-type: none">• Racial or ethnic origin• Political opinions• Religious or philosophical beliefs• Trade union membership• Genetics• Biometrics (such as fingerprints, retina and iris patterns), where used for identification purposes• Health – physical or mental• Sex life or sexual orientation
Processing	Anything done to personal data, such as collecting, recording, organising, structuring, storing, adapting, altering, retrieving, using, disseminating, erasing or destroying. Processing can be automated or manual.
Data subject	The identified or identifiable individual whose personal data is held or processed.
Data controller	A person or organisation that determines the purposes and the means of processing of personal data.
Data processor	A person or other body, other than an employee of the data controller, who processes personal data on behalf of the data controller.
Personal data breach	A breach of security leading to the accidental or unlawful destruction, loss, alteration, unauthorised disclosure of, or access to personal data.

Data Protection Officer (DPO)	A named individual who helps the school protect their data and stay compliant with data protection regulations
Information Commissioner's Office (ICO)	The UK supervisory authority for data protection. They have the responsibility for enforcing the data protection regulations (GDPR)
GDPR	The General Data Protection Regulations 2016. New regulations covering data protection that became enforceable in May 2018.

4. The data controller

Our school processes personal data relating to parents, pupils, staff, governors, visitors and others, and therefore is a **data controller**. The school is [registered as a data controller with the ICO](#) and will renew this registration annually or as otherwise legally required.

5. Roles and responsibilities

This policy applies to **all staff** employed by our school, and to external organisations or individuals working on our behalf. Staff who do not comply with this policy may face disciplinary action.

5.1 Governing board

The governing board has overall responsibility for ensuring that our school complies with all relevant data protection obligations.

5.2 Data protection officer

The data protection officer (DPO) is responsible for overseeing the implementation of this policy, monitoring our compliance with data protection law, and developing related policies and guidelines where applicable. They will provide an annual report of their activities directly to the governing board and, where relevant, report to the board their advice and recommendations on school data protection issues.

The DPO is also the first point of contact for individuals whose data the school processes, and for the ICO. Full details of the DPO's responsibilities are set out in their job description.

Our internal lead for data protection is the **School Office Manager, Antonia Hopkins**.

Our DPO is **Andy Wynne** and is contactable via andy.wynne@learnsheffield.co.uk

5.3 Head Teacher

The Head Teacher acts as the representative of the data controller on a day-to-day basis.

5.4 All staff

Staff are responsible for:

- Collecting, storing and processing any personal data in accordance with this policy
- Informing the school of any changes to their personal data, such as a change of address
- Contacting the DPO in the following circumstances:
 - With any questions about the operation of this policy, data protection law, retaining personal data or keeping personal data secure
 - If they have any concerns that this policy is not being followed
 - If they are unsure whether or not they have a lawful basis to use personal data in a particular way
 - If they need to rely on or capture consent, draft a privacy notice, deal with data protection rights invoked by an individual, or transfer personal data outside the European Economic Area
 - If there has been a data breach or they suspect there may have been a data breach
 - Whenever they are engaging in a new activity that involves the use of personal data
 - If they need help with any contracts or sharing of personal data with third parties

6. Data protection principles

The GDPR is based on data protection principles that our school must comply with.

The principles say that personal data must be:

- Processed lawfully, fairly and in a transparent manner

- Collected for specified, explicit and legitimate purposes
- Adequate, relevant and limited to what is necessary to fulfil the purposes for which it is processed
- Accurate and, where necessary, kept up to date
- Kept for no longer than is necessary for the purposes for which it is processed
- Processed in a way that ensures it is appropriately secure

This policy sets out how the school aims to comply with these principles.

7. Collecting personal data

7.1 Lawfulness, fairness and transparency

We will only process personal data where we have one of 6 'lawful bases' (legal reasons) to do so under data protection law:

- The data needs to be processed so that the school can **fulfil a contract** with the individual, or the individual has asked the school to take specific steps before entering into a contract
- The data needs to be processed so that the school can **comply with a legal obligation**
- The data needs to be processed to ensure the **vital interests** of the individual e.g. to protect someone's life
- The data needs to be processed so that the school, as a public authority, can perform a task **in the public interest**, and carry out its official functions
- The data needs to be processed for the **legitimate interests** of the school or a third party (provided the individual's rights and freedoms are not overridden)
- The individual (or their parent/carer when appropriate in the case of a pupil) has freely given clear **consent**

For special categories of personal data, we will also meet one of the special category conditions for processing which are set out in the GDPR and Data Protection Act 2018.

For the majority of data that schools hold and process consent is not required as schools have a legal obligation to keep children safe and deliver education.

If we offer online services to pupils, and we intend to rely on consent as a basis for processing, we will get parental consent (except for online counselling and preventive services).

Whenever we first collect personal data directly from individuals, we will provide them with the relevant information required by data protection law.

7.2 Limitation, minimisation and accuracy

We will only collect personal data for specified, explicit and legitimate reasons. We will explain these reasons to the individuals when we first collect their data.

If we want to use personal data for reasons other than those given when we first obtained it, we will inform the individuals concerned before we do so, and seek consent where necessary.

Staff must only process personal data where it is necessary in order to do their jobs.

When staff no longer need the personal data they hold, they must ensure it is deleted or anonymised. This will be done in accordance with the school's **record retention schedule** which follows the retention periods set out by Sheffield City Council and/or the Information and Records Management Society.

8. Sharing personal data

We will not normally share personal data with anyone else, but may do so where:

- There is an issue with a pupil or parent/carer that puts the safety of our staff at risk
- We need to liaise with other agencies – we will seek consent as necessary before doing this
- Our suppliers or contractors need data to enable us to provide services to our staff and pupils – for example, IT companies. When doing this, we will:
 - Only appoint suppliers or contractors which can provide sufficient guarantees that they comply with data protection law
 - Establish a data sharing agreement with the supplier or contractor, either in the contract or as a standalone agreement, to ensure the fair and lawful processing of any personal data we share
 - Only share data that the supplier or contractor needs to carry out their service, and information necessary to keep them safe while working with us

We will also share personal data with law enforcement and government bodies where we are legally required to do so, including for:

- The prevention or detection of crime and/or fraud
- The apprehension or prosecution of offenders
- The assessment or collection of tax owed to HMRC
- In connection with legal proceedings
- Where the disclosure is required to satisfy our safeguarding obligations
- Research and statistical purposes, as long as personal data is sufficiently anonymised or consent has been provided

We may also share personal data with emergency services and local authorities to help them to respond to an emergency situation that affects any of our pupils or staff.

Where we transfer personal data to a country or territory outside the European Economic Area, we will do so in accordance with data protection law.

9. Subject access requests and other rights of individuals

9.1 Subject access requests

Individuals have a right to make a 'subject access request' to gain access to personal information that the school holds about them. This includes:

- Confirmation that their personal data is being processed
- Access to a copy of the data
- The purposes of the data processing
- The categories of personal data concerned
- Who the data has been, or will be, shared with
- How long the data will be stored for, or if this isn't possible, the criteria used to determine this period
- The source of the data, if not the individual
- Whether any automated decision-making is being applied to their data, and what the significance and consequences of this might be for the individual

Subject access requests must be submitted in writing, either by letter or email to the school or the DPO. They should include:

- Name of individual
- Correspondence address
- Contact number and email address
- Details of the information requested

If staff receive a subject access request they must immediately forward it to the school business manager or the DPO.

9.2 Children and subject access requests

Personal data about a child belongs to that child, and not the child's parents or carers. For a parent or carer to make a subject access request with respect to their child, the child must either be unable to understand their rights and the implications of a subject access request, or have given their consent.

Children below the age of 12 are generally not regarded to be mature enough to understand their rights and the implications of a subject access request. Therefore, most subject access requests from parents or carers of pupils at our school may be granted without the express permission of the pupil. This is not a rule and a pupil's ability to understand their rights will always be judged on a case-by-case basis.

9.3 Responding to subject access requests

When responding to requests, we:

- May ask the individual to provide 2 forms of identification
- May contact the individual via phone to confirm the request was made
- Will respond without delay and within 1 month of receipt of the request
- Will provide the information free of charge
- May tell the individual we will comply within 3 months of receipt of the request, where a request is complex or numerous. We will inform the individual of this within 1 month, and explain why the extension is necessary

We will not disclose information if it:

- Might cause serious harm to the physical or mental health of the pupil or another individual
- Would reveal that the child is at risk of abuse, where the disclosure of that information would not be in the child's best interests
- Is contained in adoption or parental order records

- Is given to a court in proceedings concerning the child

If the request is unfounded or excessive, we may refuse to act on it, or charge a reasonable fee which takes into account administrative costs.

A request will be deemed to be unfounded or excessive if it is repetitive, or asks for further copies of the same information.

When we refuse a request, we will tell the individual why, and tell them they have the right to complain to the ICO.

9.4 Other data protection rights of the individual

In addition to the right to make a subject access request (see above), and to receive information when we are collecting their data about how we use and process it (see section 7), individuals also have the right to:

- Withdraw their consent to processing at any time
- Ask us to rectify, erase or restrict processing of their personal data, or object to the processing of it (in certain circumstances)
- Prevent use of their personal data for direct marketing
- Challenge processing which has been justified on the basis of public interest
- Request a copy of agreements under which their personal data is transferred outside of the European Economic Area
- Object to decisions based solely on automated decision making or profiling (decisions taken with no human involvement, that might negatively affect them)
- Prevent processing that is likely to cause damage or distress
- Be notified of a data breach in certain circumstances
- Make a complaint to the ICO
- Ask for their personal data to be transferred to a third party in a structured, commonly used and machine-readable format (in certain circumstances)

Individuals should submit any request to exercise these rights to the DPO. If staff receive such a request, they must immediately forward it to the DPO.

10. Parental requests to see the educational record

Parents, or those with parental responsibility, have a legal right to free access to their child's educational record (which includes most information about a pupil) within 15 school days of receipt of a written request.

11. CCTV

We use CCTV in various locations around the school site to ensure it remains safe. We will adhere to the ICO's [code of practice](#) for the use of CCTV.

We do not need to ask individuals' permission to use CCTV, but we make it clear where individuals are being recorded. Security cameras are clearly visible and accompanied by prominent signs explaining that CCTV is in use.

Any enquiries about the CCTV system should be directed to **Gemma Harvey, Head Teacher**

12. Photographs and videos

As part of our school activities, we may take photographs and record images of individuals within our school. We will obtain written consent from parents/carers for photographs and videos to be taken of their child for communication, marketing and promotional materials. We will clearly explain how the photograph and/or video will be used to both the parent/carer and pupil. Uses may include:

- Within school on notice boards and in school magazines, brochures, newsletters, etc.
- Outside of school by external agencies such as the school photographer, newspapers, campaigns
- Online on our school website or social media pages

Consent can be refused or withdrawn at any time. If consent is withdrawn, we will delete the photograph or video and not distribute it further.

When using photographs and videos in this way we will not accompany them with any other personal information about the child, to ensure they cannot be identified.

See our child protection and safeguarding policy for more information on our use of photographs and videos.

13. Artificial intelligence (AI)

Artificial intelligence (AI) tools are now widespread and easy to access. Staff, pupils and parents/carers may be familiar with generative chatbots such as ChatGPT, Microsoft Co-pilot and Google Gemini. The school recognises that AI has many uses to help pupils learn, but also poses risks to sensitive and personal data.

To ensure that personal and sensitive data remains secure, no one will be permitted to enter such data into unauthorised generative AI tools or chatbots.

If personal and/or sensitive data is entered into an unauthorised generative AI tool, the school is likely to treat this as a data breach, and will follow the personal data breach procedure outlined in appendix I.

14. Data protection by design and default

We will put measures in place to show that we have integrated data protection into all of our data processing activities, including:

- Appointing a suitably qualified DPO, and ensuring they have the necessary resources to fulfil their duties and maintain their expert knowledge
- Only processing personal data that is necessary for each specific purpose of processing, and always in line with the data protection principles set out in relevant data protection law (see section 6)
- Completing privacy impact assessments where the school's processing of personal data presents a high risk to rights and freedoms of individuals, and when introducing new technologies (the DPO will advise on this process)
- Integrating data protection into internal documents including this policy, any related policies and privacy notices
- Regularly training members of staff on data protection law, this policy, any related policies and any other data protection matters; we will also keep a record of attendance
- Regularly conducting reviews and audits to test our privacy measures and make sure we are compliant
- Maintaining records of our processing activities, including:
 - For the benefit of data subjects, making available the name and contact details of our school and DPO and all information we are required to share about how we use and process their personal data (via our privacy notices)
 - For all personal data that we hold, maintaining an internal record of the type of data, data subject, how and why we are using the data, any third-party recipients, how we are storing the data, retention periods and how we are keeping the data secure

15. Data security and storage of records

We will protect personal data and keep it safe from unauthorised or unlawful access, alteration, processing or disclosure, and against accidental or unlawful loss, destruction or damage.

In particular:

- Paper-based records and portable electronic devices, such as laptops and hard drives that contain personal data are kept under lock and key when not in use
- Papers containing confidential personal data must not be left on office and classroom desks, on staff room tables, pinned to notice/display boards, or left anywhere else where there is general access
- Where personal information needs to be taken off site, staff must sign it in and out from the school office
- Passwords that are at least 8 characters long containing letters and numbers are used to access school computers, laptops and other electronic devices. Staff and pupils are reminded to change their passwords at regular intervals
- Encryption software is used to protect all portable devices and removable media, such as laptops and USB devices
- Staff, pupils or governors who store personal information on their personal devices are expected to follow the same security procedures as for school-owned equipment.
- Where we need to share personal data with a third party, we carry out due diligence and take reasonable steps to ensure it is stored securely and adequately protected (see section 8)

16. Disposal of records

Personal data that is no longer needed will be disposed of securely. Personal data that has become inaccurate or out of date will also be disposed of securely, where we cannot or do not need to rectify or update it.

For example, we will shred or incinerate paper-based records, and overwrite or delete electronic files. We may also use a third party to safely dispose of records on the school's behalf. If we do so, we will require the third party to provide sufficient guarantees that it complies with data protection law.

17. Personal data breaches

The school will make all reasonable endeavours to ensure that there are no personal data breaches. In the unlikely event of a suspected data breach, we will follow the procedure set out in [appendix I](#). When appropriate, we will report the data breach to the ICO within 72 hours.

18. Training

All staff and governors are provided with data protection training as part of their induction process. Data protection will also form part of continuing professional development, where changes to legislation, guidance or the school's processes make it necessary.

19. Monitoring arrangements

The DPO is responsible for monitoring this policy. The governing body and senior school staff will review it together with the DPO.

This policy will be reviewed and updated if necessary when the Data Protection Bill receives royal assent and becomes law (as the Data Protection Act 2018) – if any changes are made to the bill that affect our school's practice.

Otherwise, or from then on, this policy will be reviewed **every 2 years** and shared with the full governing board.

20. Links with other policies

This data protection policy is linked to our:

- Freedom of information publication scheme
- User acceptance policy - IT
- Online safety policy
- Information retention policies

Appendix I: Personal data breach procedure

This procedure is based on [guidance on personal data breaches](#) produced by the ICO.

- On finding or causing a breach, or potential breach, the staff member or data processor must immediately notify the DPO
- The DPO will investigate the report, and determine whether a breach has occurred. To decide, the DPO will consider whether personal data has been accidentally or unlawfully:
 - Lost
 - Stolen
 - Destroyed
 - Altered
 - Disclosed or made available where it should not have been
 - Made available to unauthorised people
- The DPO will alert the Head Teacher and the chair of governors
- The DPO will make all reasonable efforts to contain and minimise the impact of the breach, assisted by relevant staff members or data processors where necessary.
- The DPO will assess the potential consequences, based on how serious they are, and how likely they are to happen
- The DPO will work out whether the breach must be reported to the ICO. This must be judged on a case-by-case basis. To decide, the DPO will consider whether the breach is likely to negatively affect people's rights and freedoms, and cause them any physical, material or non-material damage (e.g. emotional distress), including through:
 - Loss of control over their data
 - Discrimination
 - Identity theft or fraud
 - Financial loss
 - Unauthorised reversal of pseudonymisation (for example, key-coding)
 - Damage to reputation
 - Loss of confidentiality
 - Any other significant economic or social disadvantage to the individual(s) concerned

If it's likely that there will be a risk to people's rights and freedoms, the DPO must notify the ICO.

- The DPO will document the decision (either way), in case it is challenged at a later date by the ICO or an individual affected by the breach. Documented decisions are stored on the school's computer system
- Where the ICO must be notified, the DPO will do this via the ['report a breach' page of the ICO website](#) within 72 hours. As required, the DPO will set out:
 - A description of the nature of the personal data breach including, where possible:
 - The categories and approximate number of individuals concerned
 - The categories and approximate number of personal data records concerned
 - The name and contact details of the DPO
 - A description of the likely consequences of the personal data breach
 - A description of the measures that have been, or will be taken, to deal with the breach and mitigate any possible adverse effects on the individual(s) concerned
- If all the above details are not yet known, the DPO will report as much as they can within 72 hours. The report will explain that there is a delay, the reasons why, and when the DPO expects to have further information. The DPO will submit the remaining information as soon as possible
- The DPO will also assess the risk to individuals, again based on the severity and likelihood of potential or actual impact. If the risk is high, the DPO will promptly inform, in writing, all individuals whose personal data has been breached. This notification will set out:
 - The name and contact details of the DPO
 - A description of the likely consequences of the personal data breach
 - A description of the measures that have been, or will be, taken to deal with the data breach and mitigate any possible adverse effects on the individual(s) concerned

- The DPO will notify any relevant third parties who can help mitigate the loss to individuals – for example, the police, insurers, banks or credit card companies
- The DPO will document each breach, irrespective of whether it is reported to the ICO. For each breach, this record will include the:
 - Facts and cause
 - Effects
 - Action taken to contain it and ensure it does not happen again (such as establishing more robust processes or providing further training for individuals)

Records of all breaches will be stored on the school's computer system.

The DPO and Head Teacher or school business manager will meet to review what happened and how it can be stopped from happening again. This meeting will happen as soon as reasonably possible

Example actions to minimise the impact of data breaches

We will take the actions set out below to mitigate the impact of different types of data breach. We will review the effectiveness of these actions and amend them as necessary after any data breach.

- Investigate school systems to confirm the source of the breach.
- Interview staff and pupils to investigate the reason for the breach. (eg. malicious or accidental)
- Contact recipients of data and request that the data in question is deleted, and not shared, published or replicated, and evidence of this action is provided (eg. screenshot of deletion)
- Attempt to remotely wipe a lost or stolen school phone or other device
- Log requests with internet based providers to remove copies of any breached data.
- Change login credentials for any compromised accounts
- Document actions and outcomes.

Appendix 2: Appropriate Policy Document (APD)

Our processing of special categories of personal data and criminal offence data

As part of our school's functions, we process special category data and criminal offence data in accordance with the requirements of Article 9 and 10 of the General Data Protection Regulation ('GDPR') and Schedule 1 of the Data Protection Act 2018 ('DPA 2018').

Special category data

Special category data is defined at Article 9 UK GDPR as personal data revealing:

- Racial or ethnic origin;
- Political opinions;
- Religious or philosophical beliefs;
- Trade union membership;
- Genetic data;
- Biometric data for the purpose of uniquely identifying a natural person;
- Data concerning health; or
- Data concerning a natural person's sex life or sexual orientation

It is also important to be aware that some of the [nine protected characteristics outlined in the Equality Act 2010](#) are classified as special category data. These include **race, religion or belief, and sexual orientation**. They may also include **disability, pregnancy, and gender reassignment** in so far as they may reveal information about a person's **health**.

Criminal conviction data

Article 10 UK GDPR covers processing in relation to criminal convictions and offences or related security measures. In addition, section 11(2) of the DPA 2018 specifically confirms that this includes personal data relating to the alleged commission of offences or proceedings for an offence committed or alleged to have been committed, including sentencing. This is collectively referred to as 'criminal offence data'.

This policy document

Some of the Schedule 1 conditions for processing special category and criminal offence data require us to have an Appropriate Policy Document ('APD') in place, setting out and explaining our procedures for securing compliance with the principles in Article 5 and policies regarding the retention and erasure of such personal data.

This document explains our processing and satisfies the requirements of Schedule 1, Part 4 of the DPA 2018.

In addition it provides some further information about our processing of special category and criminal offence data where a policy document isn't a specific requirement. The information supplements our privacy notices which are available on the school/trust website here. [link to privacy notices]

Conditions for processing special category and criminal offence data

We process special categories of personal data under the following UK GDPR Articles:

1. Article 9(2)(b) – where processing is necessary for the purposes of performing or exercising obligations or rights which are imposed or conferred by law on the [school/trust] or the data subject in connection with **employment, social security or social protection**.

Examples include our processing of information about staff sickness absences.

2. Article 9(2)(g) - reasons of **substantial public interest**.

The school/trust is a public body. Our processing of personal data in this context is for the purposes of substantial public interest and is necessary for the carrying out of our role.

An example of this processing would include sharing special category data with the DfE when required, for example as part of the school census.

3. Article 9(2)(j) – for **research** purposes in the public interest.

The relevant purpose we rely on is Schedule 1 Part 1 paragraph 4 – research.

An example of our processing is working with universities, local partners and the Department of Education to provide data for research purposes to help improve UK schools and education.

4. Article 9(2)(h) – the treatment or the **management of health**.

Examples include our processing of data received from an NHS professional or other healthcare worker about one of our students.

5. Article 9(2)(i) – for reasons of public interest in the area of **public health**.

Examples include our sharing data about our staff or students with the NHS in the case of a pandemic.

6. Article 9(2)(a) – **explicit consent**

In circumstances where we seek consent, we make sure that the consent is unambiguous and for one or more specified purposes, is given by an affirmative action and is recorded as the condition for processing.

Examples of our processing include information about student or staff dietary requirements, allergies and other health information that we require to look after the wellbeing of our students and workforce.

When we ask for ethnicity (requested by the DfE for school census returns) we make it clear that providing it is optional and by providing it the data subject (or their parent/carer) is consenting for it to be shared with the DfE.

7. Article 9(2)(c) – where processing is necessary to protect the **vital interests** of the data subject or of another natural person.

An example of our processing would be using health information about a student or member of staff in a medical emergency.

We process criminal offence data under Article 10 of the UK GDPR

Examples of our processing of criminal offence data include pre-employment checks (DBS, barred list) and declarations by a member of the school/trust workforce in line with contractual or safeguarding obligations.

Processing which requires an Appropriate Policy Document

Almost all of the substantial public interest conditions in Schedule 1 Part 2 of the DPA 2018, plus the condition for processing employment, social security and social protection data, require an APD (see Schedule 1 paragraphs 1 and 5).

This section of the policy is the APD for the school. It demonstrates that the processing of special category ('SC') and criminal offence ('CO') data based on these specific Schedule 1 conditions is compliant with the requirements of the UK GDPR Article 5 principles. In particular, it outlines our retention policies with respect to this data.

Description of data processed

- Health and medical data - workforce and students
- Ethnicity - students and workforce
- [Religion - students and workforce]
- Criminal records - DBS checks for all members of the school workforce (paid and unpaid)

Further information about this processing can be found in our privacy notices.

We also maintain a record of our processing activities in accordance with Article 30 of the UK GDPR.

Schedule 1 conditions for processing

Special category data

We process special category data for the following purposes in Part 1 of Schedule 1:

- **Paragraph 1(1)** employment, social security and social protection.

We process SC data for the following purposes in Part 2 of Schedule 1. All processing is for the first listed purpose and might also be for others dependent on the context:

- **Paragraph 6(1) and (2)(a)** Statutory, regulatory and government purposes
- **Paragraph 8(1) and (2)** Equality of opportunity or treatment
- **Paragraph 18(1)** Safeguarding of children and of individuals at risk

Criminal offence data

We process criminal offence data for the following purposes in parts 1 and 2 of Schedule 1:

- **Paragraph 1** – employment, social security and social protection

Procedures for ensuring compliance with the principles

Accountability principle

We have put in place appropriate technical and organisational measures to meet the requirements of accountability. These include:

- The appointment of a Data Protection Officer (DPO) who reports directly to our highest management level.
- Taking a 'data protection by design and default' approach to our activities.
- Maintaining documentation of our processing activities.
- Adopting and implementing data protection policies and ensuring we have written contracts in place with our data processors.
- Implementing appropriate security measures in relation to the personal data we process.
- Carrying out data protection impact assessments for our high risk processing.

We regularly review our accountability measures and update or amend them when required.

Principle (a): lawfulness, fairness and transparency

Processing personal data must be lawful, fair and transparent. It is only lawful if and to the extent it is based on law and either the data subject has given their consent for the processing, or the processing meets at least one of the conditions in Schedule 1.

We provide clear and transparent information about why we process personal data including our lawful basis for processing in our privacy notice, staff privacy notice and this policy document.

Our processing for purposes of substantial public interest is necessary to function as a school/trust under the Education Act 2005

Our processing for the purposes of employment relates to our obligations as an employer.

We also process special category personal data to comply with other obligations imposed on the school/trust by the Department for Education or our local authority.

Principle (b): purpose limitation

We process personal data for the purposes explained above when the processing is necessary for us to fulfil our statutory functions as a [school/trust]

If we are sharing data with another controller, we will document that they are authorised by law to process the data for their purpose.

We will not process personal data for purposes incompatible with the original purpose it was collected for.

Principle (c): data minimisation

We collect personal data necessary for the relevant purposes and ensure it is not excessive. The information we process is necessary for and proportionate to our purposes. Where personal data is provided to us or obtained by us, but is not relevant to our stated purposes, we will erase it.

Principle (d): accuracy

Where we become aware that personal data is inaccurate or out of date, having regard to the purpose for which it is being processed, we will take every reasonable step to ensure that data is erased or rectified without delay. If we decide not to either erase or rectify it, for example because the lawful basis we rely on to process the data means these rights don't apply, we will document our decision.

Principle (e): storage limitation

All special category data processed by us for the purpose of employment or substantial public interest is retained for the periods set out in our retention schedule

We determine the retention period for this data based on our legal obligations and the necessity of its retention for our business needs. Our retention schedule is reviewed regularly and updated when necessary.

Principle (f): integrity and confidentiality (security)

Electronic information is processed within our secure network. Paper copies of personal data are kept locked in filing cabinets in locked offices.

Our electronic systems and physical storage have appropriate access controls applied, only relevant staff have access to the files.

The systems we use to process personal data allow us to erase or update personal data at any point in time where appropriate.

Retention and erasure policies

Our retention and erasure practices are set out in our retention schedule which is available on request from the school office

APD review date

This policy will be retained for the duration of our processing and for a minimum of 6 months after processing ceases.

This policy will be reviewed **at least bi-annually** or revised more frequently if necessary.

Additional special category processing

We process special category personal data in other instances where it is not a requirement to keep an appropriate policy document. Our processing of such data respects the rights and interests of the data subjects.

We provide clear and transparent information about why we process personal data including our lawful basis for processing in our privacy notice and workforce privacy notice.
